KEY ATTRIBUTES

CUSTOMIZE

Mission Central can be modified & personalized to suit specific needs

DATABASE

The webmap data is centralized in a database for consistent information

SECURE

Customize permissions to suit your purposes

UP-TO-DATE

The most current information is displayed allowing users to stay up-to-date

SIMPLE

SMS updates, bulk uploads, intuitive interface

SENSIBLE SOLUTIONS THAT OPTIMIZE YOUR BUSINESS

Mission Central, our bespoke webmap application, provides near-real time updates on your drilling program.

Logistic, drilling, and reclamation statuses are displayed with hyperlinks to your data.

HTML5 compliance means no custom application needs to be installed to use Mission Central; a current browser is all you need.

Updated by smart phone on the fly, or by bulk upload, and hosted on secure servers in Calgary, your data is always current and secure.

Mission will work with you to customize the product to suit your needs.

Options include:

- Dedicated hosting
- Customized reporting
- Customized data links
